PRESS RELEASE BY THE LEADER OF THE OPPOSITION, HON. DON DUNSTAN,
Q.C., M.P.

10.1.69.

The recommendations of the Snowy Mountains Authority must clearly be overlooking the disadvantages to South Australia of having an additional major River Murray storage six water weeks away from South Australia. It is quite clear that no other project than the Chowilla can give us the same guarantees which it does.

It is essential that South Australia continue to press for Chowilla and I am alarmed that the views of the Minister for National Development who has for a long time been against the Chowilla project appear to be prevailing, and I ask what is now happening to the unconditional promise of the State Government before the last elections that it would build the Chowilla dam.
